

IT Project Manager – Healthcare

Be a part of a highly specialized team of IT professionals at Bravo LT. All Bravo LT employees hold a bachelor's or master's degree in computer science, technical communication, communication studies, or instructional design. They also come from a variety of organizations including, but not limited to, the Chicago Mercantile Exchange, Gordon Food Service, ACI Worldwide, Amway, Herman Miller, Grand Valley State University, and Dematic.

Responsibilities

- Overseeing technical integrations as part of a company-wide strategic project portfolio
- Bringing together technical and business resources, assigning responsibilities, and coordinating their work
- Developing all project and program documentation (including resource plans, project requirements, scope, and timelines), managing budgets, and communicating with stakeholders at every level of the organization
- Adhering to our existing project management methodology and quality standards and ensuring project success at every level
- Maintaining a solid understanding of the desired outcomes of your program and projects, and ensuring consistent alignment with business objectives and strategy

Skill Requirements

- Exceptional communication skills
- Experience working on custom web development projects
- Comfortable with fast change and a fair amount of uncertainty
- Collaborators who strive for continuous improvement
- Able to grasp technical concepts required to understand overall project scope and communicate effectively with technical team members
- Eager to develop and expand their knowledge of the healthcare industry
- Skilled at navigating cross-functional teams and projects
- Qualified to work at the highest levels in all phases of project leadership
- Excellent at motivating team members and providing direction

Experience Requirements

- 3+ years experience in the field
- Experience in a project management role that adheres to Project Management (PMI) principles and practices, and which includes leading multiple moderately-sized project teams of eight or more team members within a matrix organization; supervising or leading resources directly or indirectly in a cross-functional team environment; and projects in multiple technologies and/or business functions

Education Requirements

- Bachelor's degree or equivalent, master's degree preferred
- PMP or PgMP certification preferred

Location: Grand Rapids, MI
